

# 3/12/12, Will and Kate and the Netjeru of Abydos

[Prasutagus's Blog](#)

As we know, on the 3rd of December 2012 (11), St James Palace announced the pregnancy of Cat her ine, Kate Middleton (Goldsmith). On the same date, according to some, ( mainly the 2012 Industry), for the first time in millennia, Venus, Mercury and Saturn were to align with the Pyramids at Giza.

✘ The above photo has been all over the net, bearing in mind it was published back in August I think, some jumped on it enough for it to be viral in the 'truth' movement, due diligence will reveal the not so accurate side to the hype. As with the rest of the dates regarding the inbred Will and Kate in 2012, indeed since their conception, the esoteric has been occulted but more visible in 2012 if that makes sense. The masses should've at least thought the Olympic ceremonies were a bit weird, to countless it was a blatant piss take and massive occult message, I won't go into detail on it, it was a foregone conclusion to any after researching Beijing, and frankly I couldn't be bothered.

There are many excellent posts if you search, but a few simple pictures should say plenty regarding this post.

 Child catcher by royal appointment from (C)Shitty bang bang ! crude message but 'BANG' on, Saville antics to a t.

 Baby with a gash to it's head, nothing weird here, where do all the children go after abuse?

Suicided like the nurse and mother of two who passed on a phone message!? or signifying a birth? The Law of Succession has been changed to allow the first born girl to become Queen, New age of Isis? they need the baby to be healthy if not sane, It's not slander it's fact, they've been inbreeding, killing each other and going bonkers for ever and a day, You'd get it checked out wouldn't you, only natural, did the nurse assist in some way with the unborn?

April 29th to December 3rd is 218 days – 11

December 3rd to December 21st is 18 days – 9

huhumm

Tomorrow is 12/12/2012 -11, SIX days after the 3rd, and 9 days until the 21st, another 9/11 ,watch the press, they won't be able to resist a little, or god forbid a big message.

18 days is 25,920 minutes, the number of years for the procession of the equinox, a Platonic year, the twelve zodiac (cadoiz = 31415926) divide the sky into 12,

$12/25920 = 2160 = 6*6*6*10$ , it is a Platonic month, the diameter of the moon, encoded in the Pyramids and Stonehenge,

18 days is 432 hours, the radius of the Sun (432,000) and a Platonic Minute

Diana is the moon goddess, another version of the moon goddess, darker, is Hecate, The Romans dedicated the 29th (11) of every month to her, Hecate now wears Dianas ring.

Hecate and Diana, Astarte, Demeter, Kali, Inanna, the same.

Together, sporting the colours of the moon with a hint of sunlight.

December 3rd is the Going forth of the Netjeru of Abydos, The Abydos are Isis, Osiris and Horus.

2 days later, the day the Jacintha died, is when Bast goes forth from Bubastis,

 Bast's name was tinkered with to mean "soul of [Isis](#)" (ba-Aset) changing her into a form of this popular goddess. They also decided that Bast was a moon goddess, although she was originally considered to be the daughter of Ra and the "Eye of Ra".

Isis is oft seen with a breast exposed,
