

# 'Israel injects Palestinian prisoners with dangerous viruses'

Press TV

I can't wait till William 'embryo' Hague finds out that the Israeli's are injecting their Palestinian detainee's with deadly virus's.

In fact, I can imagine that the gathered press will need windscreen wipers on their eyes to wipe away the flying spittle, spewing from angry Willies mouth.

I wonder what sanctions he will impose on Israel? They are bound to be tough, whatever they are. Rightly fucking so too.

Injecting people with deadly fucking virus's! How heinous can you get? Just who the fuck does Benny Netanyahu think he is?

**Bill fucking Gates?**

**Oh, hang on.**

**I forgot, we are the bad guys aren't we. Israel is our friend.**

**Bald Willie will pretend its not happening.**

**Makes you proud to be British, doesn't it.**

The Israeli regime injects Palestinian prisoners in Israeli jails with "dangerous viruses" before releasing them, a report says.

"A Palestinian released from Israeli jails, Rania Saqa, has brought to light that the Israeli regime injected detainees that are out of prisons with dangerous viruses," Russian daily *Komsomolskaya Pravda* wrote on Friday.

Saqa also said many of the prisoners are suffering from mysteriously incurable diseases such as bladder cancer and liver disorders.

She said it is a standard procedure for Israelis to inject Palestinian detainees before freeing them.

"Most former inmates die after being released from Israeli jails," the newspaper wrote.

Palestinian prisoners are calling on international organizations to take urgent action to stop this.

A rights organization has accused Israel of using Palestinian prisoners to test new drugs.

The International Solidarity for Human Rights Institute said such conduct blatantly contradicts moral and medical principles.

According to human rights group B'Tselem, more than 4,700 Palestinian prisoners, including about 170 administrative

detainees, are currently being held in Israeli prisons.

Administrative detention is a sort of imprisonment without trial or charge that allows Israel to incarcerate Palestinians for up to six months. The detention order can be renewed for indefinite periods of time.
