

The nonce trolls are out to play.

Can those of you who have bought my books please do me a favour and leave a review on Amazon since the paedo-trolls are clearly out to discredit them – especially my new book on Meghan Markle.

Course, the reasons for them doing so are obvious and I wouldn't even mind so much had they bought the fucking things and read them.

And for those who haven't, you can buy "Meghan Markle Exposed" [Here](#):

And you can buy "Never Mind The Sex Pistols" [Here](#):

Thank you, you are all very nice people.
